www.linkedin.com/in/tony-mr

Experienced Full Stack Software Developer with over 9 years of hands-on experience in building and maintaining scalable, high-performance SaaS applications. Strong expertise in Laravel for backend development and Angular for creating dynamic, responsive frontends. Proven ability to manage the entire software development lifecycle—from system design and architecture to coding, testing, and deployment. Committed to delivering clean, maintainable code and innovative solutions that align with business goals and enhance user experience.

EXPERIENCE

Senior Software Engineer

Vofox Solutions Pvt Ltd

July 2025 – Present

Kochi, Kerala

Project: Health Care Product Management

Angular

- Worked closely with the Components Team (Library Management) to add new features, troubleshoot issues across the team, fix bugs, and review merge requests while leveraging CI/CD pipelines for continuous integration and deployment.

Senior Software Engineer

Fingent Global Solutions (5 years)

June 2020 – July 2025

Kochi, Kerala

Project: Enterprise Field Service Management Software

Angular, Laravel, MySQL, Lumen, Docker, Django

- Able to write testable, clean, efficient code based on specifications
- Able to work with databases, servers, APIs, version control systems, and third-party apps.
- Key member of a core team of 5, contributing to feature planning, database design, and product improvement discussions.
- Contributed to the onboarding process for new hires, facilitating knowledge transfer and system setup, and helping them integrate seamlessly into the team culture and project workflows.
- Collaborated with UX/UI designers to translate design mockups and wireframes into responsive, user-friendly frontend interfaces.
- Led the data migration effort as part of a recurrence revamp initiative, seamlessly transitioning all data to the new structure.

Software Developer

DRD Communications And Software PVT LTD (2 years)

May 2018 - May 2020

Kochi, Kerala

Project: UBOSS

PHP, Laravel, MySQL, Python, Django

- Contributed to end-to-end development across all modules (Business, Service, User, Enterprise, etc.) in UBOSS, enhancing overall system efficiency and scalability.

Junior Software Engineer

Saasvaap Techies PVT LTD (1.3 years)

Feb 2017 - May 2018

Kochi, Kerala

PHP, Codeigniter, MySQL, Python, Flask

- Played a key role in developing and maintaining the Accounts and HR modules of the Government of Kerala's ERP system, ensuring robust financial and employee management processes.
